

Notice

If you supply your own garment(s), we are not responsible for them. If an error (human, mechanical, or other) is made on our end we will not reimburse you for garments not supplied by us, but we will reprint a garment you resupply us. Garments should be brand new with all tags & labels removed (\$.20 fee per tag/sticker/bag requiring removal). If the fabric is untested by us, we recommend bringing a shirt for us to test print. We do not inspect outside garments for defects prior to decorating, like we do with our shirts. Garments should be brand new (not washed, worn, & free from stains). For decorating errors/defects: in a nutshell, if you buy a product or service from us, we cover it, and if you do not purchase from us, we do not cover it.

Blank Garments

Blank apparel pricing can change without notice. Please contact us for current pricing. We stock a variety of shirts (mens/unisex & youth t-shirts, long sleeve t-shirts, hoodies, etc.) in our warehouse. To view the thousands of styles we have access to, visit www.4logoapparel.com/aplusimages or <https://www.companycasuals.com/aplusimages/start.jsp>. If you don't see what you are looking for, please contact us and we will do our best to find it from another vendor.

Visit www.aplusimages.com/services for more information on each print method and artwork file setup guides.

Screen Printing (Pricing is per print location) 13" x 15" max print area

We mainly offer 1 color screen printing on cotton or cotton/poly blends of t-shirts. White and Black ink are stocked for 100% polyester garments. We do not screen print on nylon, vinyl, or other specialty fabrics. Two-color screen printing will be offered on a case-by-case basis, depending on the design and our production schedule. For most jobs, we require vector art for screen printing. If you have more colors in your art, DTG or heat transfers (priced on a case-by-case basis) may be a solution.

We require .pxf or .dst files for embroidery. We can digitize files if you cannot provide one. The majority of designs are \$30 for up to 15,000 stitches. Add \$1.50 per 1,000 stitches for designs over 15k stitches. A sewout is included when we digitize your file. We reserve the right to adjust pricing as necessary if customer supplied files are poorly digitized. Add \$0.15 per 1,000 stitches for metallic thread.

Orders require 100% prepayment, unless garments are customer supplied. If garments are customer-supplied, at least 50% down is required to start. The balance is due at pickup. We accept cash, credit, & debit. We do not offer terms.

Pricing is subject to change at any time. Visit www.aplusimages.com/price-lists for current pricing.

DTG is designed for 100% cotton shirts. It also looks great on 100% cationic polyester. Add \$1.50 per print when printing on non-white cationic poly. Cotton/poly blends (50/50, 60/40, 70/30, 65/35, 80/20, 90/10) and tri-blends also work, but colors are not as vibrant. Non-cationic polyester is subject to dye migration (bleeding). A workaround to dramatically reduce (but not eliminate) this results in a 75% premium. Non-flat garments can be printed with a \$3.00 setup fee and 50% premium per garment. Fabrics over 6 oz have a \$0.50 per oz surcharge. Color charts can be found online, in our shop, or purchased for \$20.

Sign Vinyl (Print/cut on Roland True-Vis VG-540 upgraded to TR2 CMYKLcLmLk inks)

There is a lot of information to know about our print/cut vinyl offerings. Please visit www.aplusimages.com/services/signs for more information and downloadable PDFs on the products below. **Costs for all jobs will be estimated based on the formula: "Vinyl cost per sq ft" + "\$1.75 per cc of ink" + "Labor/Print time (\$75/hr)"** once artwork and job details are received. **T-Shirt vinyl adds \$2.50 per heat press hit.** **Vinyl/laminate usage will include "waste" areas that are required to complete a job, not only the printed area of a graphic.** Examples: A 2' x 4' banner cut out of a 4.5' wide roll of banner will use more than 8 sq ft (approx 13.5 sq ft). Meanwhile, a 3' x 6' banner cut out of a 4.5' wide roll of banner will use more than 18 sq ft (approx 31 sq ft). Pricing will be most cost effective when using the full width of a roll of material. Most individual items will use 0.5 to 10 ccs of ink and between \$10 and \$50 worth of labor. Examples of pricing can be found at www.aplusimages.com/signs. **To get an estimate, please email artwork and job details to doug@aplusimages.com.** Please include as much information as possible. Due to the enlarged size of most of these prints, high-quality, print-ready vector art will be required. Visit www.aplusimages.com/signs for more details. We do not install any graphics.
